

## Quick Compare - SNOWatHOME™ Pumps

Our customers insist on the best. SNOWatHOME™ prides itself on bringing quality items that are built to stand up to the unique demands of snowmaking. All of the snowmaking pumps / pressure washers SNOWatHOME™ offers are designed for continual Industrial use. These are not your typical Pressure Washers! Just look at how much water these pumps are pushing. SAH's suggestion: Know Your Flow BEFORE You Make Snow! Make Sure your water supply is able to hand the large capacity pumps. How long does it take to fill a 1 gallon milk jug? More than 10 seconds? Stay with the smaller 2.5gpm pump. About 10 seconds? Consider the 6.0gpm pump. 8 seconds or less? Go for the Big Guy! Let's go make some snow!
